

Professional Learning Programs for 2019

An invitation to be a part of the ASMS Learning Community

Please see the Professional Learning Programs we have available for 2019.

To see all programs available you can visit www.events.asms.sa.edu.au

STEM SPACES

STEM Spaces is a five day professional learning experience in which you will work in a 'Design Team' to create interdisciplinary learning experiences in STEM, suitable for your site and your students. A 'hands-on' approach to Inquiry Learning and using the Design Cycle will allow you to meet and collaborate with other educators. Build your skills in 'making' and your understanding of integrating and assessing ALL of the STEM Learning Areas in a dynamic, supportive environment. You will need to be able to commit to all 5 days; It is best that you participate with a team from your site.

Adelaide

Friday 17 May

Thursday 27 June and Friday 28 June

Monday 9 September

Monday 15 November

Professional Learning Program

An invitation to be a part of the ASMS Learning Community

Early Career teachers in STEM

The opportunity for early career teachers to build their professional capacity through sharing experiences and building professional networks is essential. As graduate teachers there is still much to learn, working with colleagues with common interests in STEM education enables exploration of the reality of teaching experiences and the chance to address challenges that may arise in these early years.

This program is designed to complement induction programs in schools and aims to provide support for early career teachers as they negotiate and deal with challenges to their professional and personal wellbeing in those very important first years with a particular focus on STEM, and the development of General Capabilities.

Dates for 2019

This one day program will be offered once per term. Please register for your preferred date.

Term 2 – Wednesday 29 May

Term 3 – Friday 9 August

Term 4 – Monday 4 November

ASMS Educator Open Days

Come and experience the ASMS in action. We invite all educators to come and observe and learn about our innovative approaches to teaching and learning in Science and Mathematics. The day will include class observations, school tour and questions with ASMS students, and sessions with a focus on innovative approaches such as interdisciplinary learning and inquiry pedagogies.

Open days will occur once per term

Term 2 – Monday 6 May

Term 3 – Friday 6 September

Term 4 – Thursday 24 October
